Summary

I'm a passionate and dedicated frontend developer who loves turning ideas into clean, visually appealing, and responsive websites and apps. I have strong skills in JavaScript, TypeScript, React.js, and Next.js. I specialise in building reusable components, integrating APIs seamlessly, and creating user-friendly web experiences across devices. I bring a collaborative mindset, strong communication, and problem-solving skills to every project. Always eager to learn and grow, I strive to write clean, efficient, and scalable code that enhances the user experience.

Education

B.Sc. Political Science

Obafemi Awolowo University (OAU), Ile-Ife, Nigeria

Expected Graduation: 2025

Skills Summary

- **Languages:** JavaScript, Typescript
- **Framework/Libraries**: ReactJs, NextJs, Framer Motion
- **Styling:** CSS3, Tailwind CSS, CSS Modules
- **Soft Skills:** Excellent Communication, Rapport Building, Team Collaboration, Problem-solving, Adaptability, Attention to detail
- **Tools & Technologies:** Git, API Integration, Responsive Web Design

---

Work Experience

Frontend Engineer Intern

ArchSaint Nexus Internship Program

January 2025 - May 2025

- Developed and maintained responsive web applications using React.js and Next.js.
- Built reusable components and collaborated closely with UI/UX designers to enhance user experience.
- Contributed to improving codebase quality through code reviews, testing, and best practices adoption.
- Integrated frontend components with REST APIs, ensuring seamless functionality across devices.

Projects

Grilli Food Website

- Designed and developed a fully responsive website for a fictional restaurant, focusing on a visually appealing layout and seamless user experience.
- Built interactive features including a dynamic menu section and a reservation form.

Technologies: HTML5, CSS3, Javascript.

Live Demo | Github Repository

CyberPosture Website

- Built a responsive, accessible website from Figma designs, focusing on UI precision and smooth navigation using React Router.
- Focused on component reusability, state management, and performance optimisation.

Technologies: React.js, React Router, CSS3

Live Demo | Github Repository

TalentNCrowns

- Developed a fully responsive landing page using CSS media queries for cross-device compatibility.
- Built and integrated a dynamic resume builder feature allowing users to create, edit, and download their profiles.
- Implemented authenticated API endpoints for managing user data (e.g., work experiences).
- Collaborating closely with the development team to deliver scalable and high-quality features.

Technologies: Next.js, Typescript, CSS3 modules, Tailwind CSS
